SYNOPSIS

Appropriation Ordinance 80-3

This ordinance contains two unrelated appropriation requests.

The first request under Board of Works constitutes funding for the repairs to the Police Station necessitated by serious termite damage recently reported there. This amount will not be ^{more than} sufficient to pay the entire bill for those repairs. However, because Revenue Sharing appropriations must be advertised weeks before they come to the Council, this amount, a very early estimate, was used in the legal ad just so the City could get the appropriation under way.

The second appropriation represents the remaining amount due the Greater Bloomington Chamber of Commerce for support of their economic development coordinator position. Last year's Council resolved to support this position with \$4,000 in 1979 and \$8,000 in 1980.

Will the legislation have a major impact on existing City appropriations, fiscal liability or revenues? Yes _____ No ☒

If the legislation will not have a major fiscal impact, explain briefly the reason for your conclusion.

*The Economic Development contribution has been planned since last year; its benefits may have a major fiscal impact, but that is beyond the scope of this ordinance.
The appropriation for Police Building repairs may be a major expense; the final figure is not known as of this writing.*

If the legislation will have a major fiscal impact, explain briefly what the effect on City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)
